THE BEAUTY OF FEELING AT HOME

Our idea of creativity and color

interior designer with a profound love of colors, their expressive, vital force, and above all their incomparable ability to make any environment bright and dynamic, more than any other element. I have combined creativity and color in a single, exquisite collection for new and decidedly original cladding solutions. lam's seamless decors extend like wallpaper, but with all the advantages of the thinnest ceramic slabs in the world, light and resistant, a powerful means of expression to renew wall surfaces and transform them into scenic surfaces which are practical and safe.

A magnetic elegance combines realism and aesthetic perfection

Warm shades and bright notes for a new laminated porcelain stoneware collection inspired by handcrafted metals in which attractive oxidation effects created by the passing of time produce five vibrant changing colors. An authentic and high-performance interpretation of the material for large-format surfaces with a thickness of just 3.5 mm that offer new solutions for contemporary living thanks to their superior technical and stylistic qualities.

Awesome

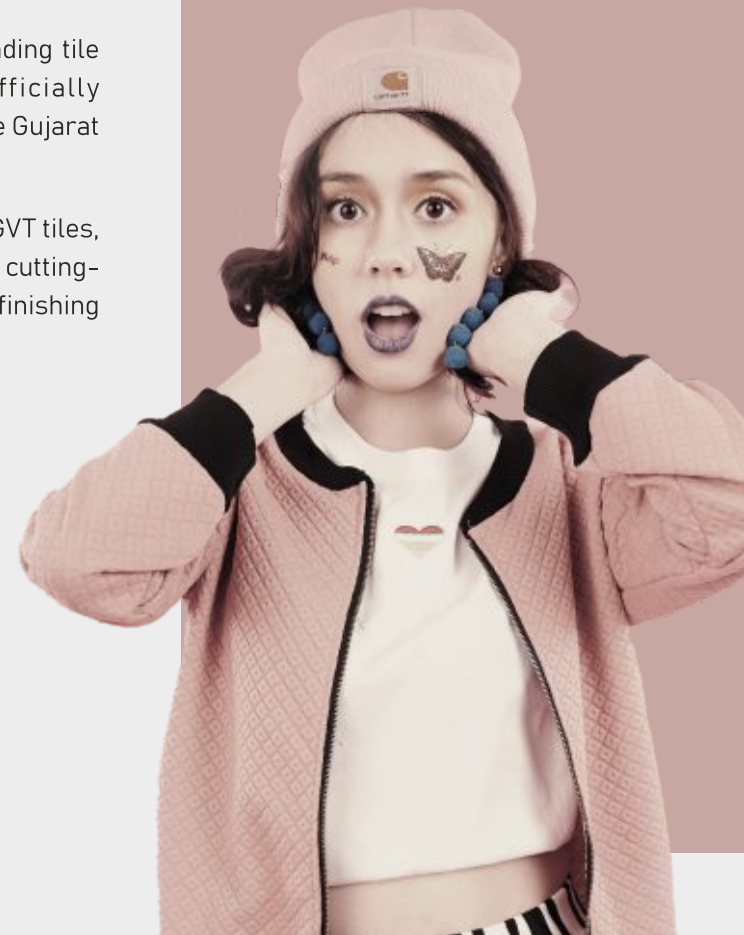

STORY ABOUT AS

We're honoured to be identified as one of the leading tile manufacturers in Morbi. We Have been officially recognised. We have been making PGVT tiles in the Gujarat Morbi region for over a decade now.

We are highly skilled in the creation of GVT and PGVT tiles, as well as their marketing and assembly, using cutting-edge, original technology. We makes amazing finishing tiles.

LUMINOUS TALES IMBUED WITH RIGOUR AND FRESH AUTHENTICITY

eye-catching thanks to its attractive metallic effects that retain and reflect light, lending brightness to ceramic surfaces designed for indoor and outdoor spaces.

A reinterpretation of the metal material with a focus on research and experimentation, a bright and natural finish that reveals all its expressive power in large laminated porcelain stoneware slabs, perfect for innovative projects and accessories with a sophisticated design.
